

KANSAS SENATE

2017 Voting Record

Description of each vote included

SB 83 (formerly SB 98) – An amendment to the Woman’s Right to Know Act. This bill requires abortion providers to disclose information about physicians who provide abortion care that has no medical benefit to the patient. It also mandates that consent forms be printed in 12-point Times New Roman font on white paper.

Note: This bill was introduced and voted on in the House – HB 2319. The Senate moved neither SB 98 nor HB 2319 for a vote, so the House held a conference committee to “gut” another bill that had passed the Senate (SB 83 was originally about propane regulation but the contents of it were removed and replaced with the contents of HB 2319). The House again passed SB 83 through a conference committee report and on to the Senate for a final vote. Despite efforts to block the bill, SB 83 passed the Senate.

HB 2044 – Medicaid Expansion. This act established the KanCare bridge to a healthy Kansas program.
